Objective

A professional Automotive/Diesel and Industrial Service Technician with the desire, knowledge and skills required to diagnose and repair malfunctions in complete mechanical systems. Hard working proficient in problem solving complex auto repair issues while consistently delivering quality service.

Experience

- **Greyhound Bus Service** 01-03-2023 - Present
  Diesel Technician
  - Performed preventative maintenance on engines, transmissions, tires and other vehicle systems
  - Replace engine parts, repair mechanical. components and replace whole engines as needed.
  - Provide services for 25-30 vehicles per week.
  - Mentor Apprentice Mechanics to secure their professional development and prepare them to work independently.
  - Inspected and diagnosed diesel engines for any mechanical or electrical problems.
  - Utilized specialized tools and equipment to diagnose and repair diesel engines.
  - Managed a fleet of diesel-powered trucks, overseeing maintenance schedules and ensuring compliance with safety regulations.
  - Implemented preventive maintenance programs, leading to a 20% reduction in unexpected breakdowns and associated repair costs.
  - Repaired and calibrated diesel engine fuel injection pumps, improving engine performance and fuel efficiency.
  - Completed checklist of fluid levels, air filter, tire pressure and more as part of service orders.
  - Inspected all vehicle systems to assess function and uncover defects.
  - Ordered parts necessary for vehicle repairs and new installations.

- **Toyota Zeerust** 01-11-2022 - 24-02-2023
  Auto Technician
  - Recommended automotive services and repairs to promote good vehicle operation and enhance road safety.
  - Kept shop areas neat, clean and free of safety hazards.
  - Topped off fluids in vehicle engines to lubricate, protect and cool engine.
  - Performed tire rotations and recommended necessary tire replacements to promote tire functionality and vehicle safety.
  - Mounted and balanced tires to promote even wear and decrease on-the-road safety hazards.
  - Checked fluids, tires, brakes and other systems as part of point inspection.
  - Used Equipment to dismount and mount tires to perform air checks, rotations and rebalances.
  - Inspected vehicles to determine need for changing oils and filters and provided feedback to customers.
  - Assisted other lube technicians and mechanics in vehicle diagnostic and repair work to enable timely completion of service tickets.
  - Installed wiper blades and headlamps and confirmed items' functionality to promote safe vehicle operation.

- **Intercity/Eagle liner Bus Service** 01-04-2022 - 28-10-2022
  Diesel Mechanic
  - Regulated preventive measure inspection on a regular basis, checked on lubrication, fluid change, brake adjustment and tier rotation.
  - Provided unscheduled maintenance as well according to the need to check on vehicle.
  - Repaired and replaced engine, electrical, fuel, brake and exhaust repairs and performed emergency roadside services.
  - Repaired power plants, air conditioning, electric, heating systems, minor body repairs, hydraulic and pneumatic systems.
  - Regulated the batteries by charging and fixing any defects.
  - Replaced and repaired fuel injection systems for diesel engines in buses and trucks.
  - Serviced and maintained engines by performing regular oil and filter changes.

- **Sakhikaya Suppliers** 14-06-2021 - 25-03-2022
  Artisan Assistant
  - Using manual and computerized diagnostic methods to identify potential problems in a car.
  - Explaining mechanical problems and possible solutions to client.
  - Planning work and testing procedures using charts, experience and other organizational methods.
  - Testing parts and systems to ensure they work correctly.
  - Ensuring all critical parts are checked and tested.
  - Performing basic automotive care, including changing oil and rotating tires.
  - Repairing or replacing worn, old or defective parts of a car.
  - Repairing or modifying a car to a manufacture’s specifications, if possible

- **Golden Arrow Bus Service** 01-08-2017 - 07-06-2021
  Apprentice Diesel Mechanic
  - Troubleshot and diagnosed problems with brakes, steering and transmissions.
  - Reconditioned and replaced pistons bearings, gears and other key part.
  - Troubled shoot transmission, brakes, electrical, steering and cooling systems.
  - Disassembles engines and examines parts for defects and excessive wear.

- Fuel, Lubricate, grease busses, trucks and other internal equipment.
- Check fluid levels, change oil, rotate tires, and complete various other regular maintenance tasks.
- Adjusted and examined loose bolts, protective guards, and safety devices.
- Use laptop and handheld computers to change the function of the engine and to diagnose as well as pinpoint engine issues.

Education

- **Nndamuleleni High** 2011
  Matric
  12

- **Capricorn Tvet** 2017
  Mechanical Engineering
  N3

- **Mouse Technical Training Academy** 2021
  Mechanical Engineering
  Diesel Trade Certificate

Skills

- Mechanical expertise
- Teamwork
- Precision
- Dependability
- Troubleshooting
- Inspecting Vehicle
- Maintenance Procedures
