I was previously by Marmac Plant Hire as a Truck Driver, looking for a full-time employment opportunity, I possess code 14(EC) driver's license, matric with encouraging results in Mathematics and Science subjects, and have had some opportunities of experience in the logistics industry, i had a chance to operate a forklift, been a picker, been a checker; with SHe Rep, First Aid(level 3), Racking Inspection, Fire Fighter.

I have had an opportunity to further my studies at the EWC Tembisa campus, obtained Sports Management in the year 2013. I need anything that might get me equipped with experience, so I can be considered for employment in the near future. I am an inexperienced Code 14 (EC) license holder, with PrDP.

I am now hoping for anything that will help me put bread on the table, for my family. I'm a very ambitious and a good team player

Regards
