Career Objectives and attributes

I am a matriculant of class of 2015, majored in subjects of Maths and Physical Science. I am thoughtful and enthusiastic towards achieving best goals either on personal standards or in a working place, equipped with excellent job experience in retail transactions (computer till operator) from McDonald's, currently looking for any entry level position related to retailing. I am computer literate, I am solution driven, my experience with people made me to be a fair person and always chooses to understand the other side of the story from the other person, I can say my greatest skill is the listening skill. I have learnt definition of good customer and learnt to smile to everyone, even through the phone.
