Motivation Letter (KGOBE-TECH)

Kgobe-Tech (PTY)ltd is a proudly South African business and is 100% percent black owned. It is a fairly new Audio-Visual organization that

Aims to create an important mark in South Africa and the rest of the world. We

Specialize in audio visual solutions across all borders. Our beliefs and goals are Strongly

rooted within the three words, Innovation, Integrity, and Performance.

Innovation is the continuation of change, and we believe that change is always

Better. Innovation has a lot to do with most words that start Withs're', renovation, Remodeling,

revamp, recreate, restructure and many more, which is what we want

To achieve.

We strive to be recognized as one the organization's that are trusted, takes Responsibility

and has a good character. Integrity is about trustworthiness,

Responsible and honourable.

Performance is an achievement. We would like to see ourselves achieve our Goals

through our customers. If our customers are satisfied, we will also feel a

Sense of achievement.

Goals & objectives

Our prime focus is to provide quality services and the best solutions to our

Clients.

We are a client centric, and we commit ourselves in achieving customer

Satisfaction.

With our competences and skills, we wish to change and improve our client's

Business systems.

Innovation, Integrity and performance

Our services:

The services that we provide are mostly utilized but not limited in areas such as

The boardrooms, meeting rooms, auditoriums, video conferencing facilities,

Training center's, events Centre's etc.

Our main core business is to do a thorough consultation and give Recommendations based on the

results of the assessment. We do assessment

Of the existing equipment's and the outcome of the assessment will indicate What

the next step will be.

We design new spaces that have not had audio visual equipment's before and, This

we do for new buildings and we re-model for a client who requires a complete

Make over.

We also do installations and designs based on the client's requirements.

This includes AV equipment's such as Projectors, screens, monitors etc.

While a lot of clients complain that they receive little or no support after the work has

Been completed. We want to ensure our clients that they will receive training on The

installed AV equipment and on & off-site support.

We also do rentals, whereby we rent audio visual equipment's / PA systems for

Different events.

1. Data cabling

2. boardroom/Meeting Support/ Maintenance/upgrade

3. Network Security CCTV AND I.P CCTV cameras (Remote monitoring)

4. Wi-Fi-Installation and Network infrastructure
